

PRESS RELEASE

March 2015

## Regatta Yachting brings affordable high quality cruising to the UK yacht market with launch of new Maxi 1200

The recently established international yacht sales company, *Regatta Yachting*, is bringing the brand new Maxi 1200, a 38 foot, high performance cruiser, to the UK and Ireland with a comprehensive introductory package for the first six UK buyers.

A name synonymous with high quality, the ever popular Maxi brand combines state of the art yacht design with luxurious comfort to create a yacht perfect for fast ocean cruising as well as relaxation.

Regatta Yachting's offer includes everything you'd expect from a performance cruising yacht of this high calibre including teak decks, carbon bowsprit, self tailing winches, carbon wheels, B&G instruments, luxury interior details, Selden furling system and North Sails main and jib. The package price, available to the lucky six, is just €190,000 (ex factory, ex VAT). [Click here](#) for more information.

### **Sleek Design**

Designed by the renowned Swedish Olympic Sailor, Pelle Patterson, the Maxi 1200 is built for speed as well as function. Ideal for couples and families, the sporty and dynamic hull profile is combined with simple, clean and modern styling with all of the luxury comforts you'd expect from a high end cruising yacht. Lines and sheets are neatly run under-deck and with all controls running back to the cockpit, the Maxi 1200 can be sailed single handed with ease.

## **Luxury Interior**

Down below, the yacht is light and spacious with a practical yet luxury fit out designed by Tony Castro. High spec details include teak throughout, Corian galley worktops, electric extractor hood, spacious twin fridges, twin sinks and a separate shower and heads compartment. Twin and triple double cabin options are available.

## **Tough and Durable**

A CE-A category yacht, the hull and deck of the Maxi 1200 are laminated in vinylester resin and have sandwich laminate with PCV core. Carbon reinforcements are used throughout giving it extra strength to make it suitable for offshore sailing and around the world adventures.

## **State-of-the-art Construction**

The Maxi 1200 is built by the famous and technically advanced Delphia Boatyard in Poland. A clean, modern set up with state of the art boat building technology including LIM (Laminate Infusion Method) and CNC (Computer Numerical Control), the boatyard is the perfect environment for producing high quality, durable yachts. Furthermore, customisation is a speciality so customers have the option to personalise their yacht as they wish.

## **Test Sails**

Test sails of the Maxi 1200 in Palma are available by appointment to potential buyers 22nd–30th April 2015. The first UK boat will be arriving August 2015 and will be premiered at the Southampton Boat Show. UK demo sails will be available from September 2015.

Interested buyers should contact Russell Hodgson at Regatta Yachting for more information and to book a test sail: [russell@regattayachting.co.uk](mailto:russell@regattayachting.co.uk), +44 (0) 7570 612405.

-Ends-
